EXPERIENCES

Zinzo — Full Stack Developer

Nov 2023 – Present

- Design and optimize database schemas, develop backend REST APIs with Flask (Python), and implement frontend UIs with React.
- Designed and managed containerized deployments using Docker and PostgreSQL, implementing caching layers and reverse proxy configurations to maintain 99.9% uptime.
- Work on Shopify-related applications and integrations.

Freelancer — Full Stack Developer

Jun 2023 – Nov 2023

- Delivered custom websites for multiple clients, designing and implementing UI/UX layouts across both frontend and backend.

PROJECTS

Full-Stack Web Apps

- Engineered a custom headless e-commerce platform ([Amrita Nutrition](#)) using Shopify APIs, serving **50,000+** users and processing **€200,000+** in monthly revenue.
- Built an **AI-powered** Product Information Management ([PIM](#)) platform to synchronize complex inventory data across multiple Shopify stores.
- Delivered multiple custom web applications for clients, building end-to-end solutions with scalable architectures and real-world business requirements.

Shopify Ecosystem

- Extended Shopify functionality via API integrations, custom apps, and optimized store builds, delivering conversion-focused features and operational tools.
- Check out [Hotshop](#) and [CRO](#) apps built to scale with merchants.

Side Projects & Experiments

- Continuously building useful applications in my free time to explore ideas and solve real problems, including a [Duhok electricity](#) web app, for tracking pricing clearly and efficiently.

SKILLS

Frontend

- HTML
- CSS
- Tailwind CSS
- JavaScript (ES6+)
- TypeScript
- React
- Next.js

Backend

- Python
- Flask
- PostgreSQL
- Redis

DevOps

- CI/CD (GitHub Actions)
- Docker
- Kubernetes
- Nginx
- Linux
- Bash

CERTIFICATIONS

B.Sc. Degree in Civil Engineering — University of Duhok

Nov 2018 – May 2022

- Developed strong analytical and problem-solving skills through complex engineering projects.
- Applied mathematical modeling and data analysis to design and optimize systems.

Developer Certification in Responsive Web Design — freeCodeCamp

Jun 2021 – Jul 2021

- 300 hours of coursework in HTML, CSS, and responsive design.
- Built 5 projects demonstrating practical frontend development skills.
